There is approximately 2-3 bullet points in spanish and 10 slides. I have done a few already.

I have tried to use google translate but need someone who can translate the text so it is understandable.

Make changes right in Powerpoint, I will email you the file and you email back to me. It is about 3 MB in size. Only translation no other graphics or formatting needed.

Need within a couple of days.

I have a medical presentation that I need translated (power point) into Spanish which will given to a neurology conference in Europe in February. I need the text translated and reformatted into the presentation (references do not need to be translated). I would need a pretty quick turnaround for this.
