Translate a one page InDesign CS6 document from English to Spanish.

The document was created in InDesign CS6. Ideally, it would be translated directly in the document. However, I'm happy to take it as a word document.

Rating from catdev

"Jorge was fantastic. I posted this job at the end of the day, approved Jorge just before I left for home, and was greeted with a fully translated document by the time I got home. Efficient, and pleasant to work with. Hard to attest to the quality -- if I knew enough Spanish to make that assessment, I probably wouldn't need a translator. Otherwise, a great Elance moment."
