Translate web site http://batchgeo.com from English to Spanish.

Use attached zip file with language files.

Before beginning translation please read:

* Single quotes (') need to be escaped by adding a slash before them like this: \'
* Do not change define variables just text in second part
* You can ignore DATA_TABLE and TEXTAREA sections
* Each file contains reference link to english version. Please look at online version before proceeding to get proper context for translation.
* We are more concerned with conveying meaning than a literal translation.
* Pages may contain technical terms that you are unfamiliar with, please ask us if

Hello,

I'm looking for experienced and professional translator to translate niche dating website from English to Spanish language and to make some adjustments required by this localization. Our intended audience is Spanish-speaking countries in Latin America and maybe Spain itself.

Project scope:
1. Research – indicate notation, phrases used in particular niche by audience – we must speak their language;
2. Website user interface - 3 166 words / 19 883 characters without spaces;
3. Articles, resources and similar content– 12 763 words / 61 966 characters without spaces;

"I appreciate opportunity to work with Jorge - skilled professional who completed translation on time and in high quality. This fact was verified by independent proofreader. It's worth to mention that project was not pure translation, but included some editing/writing and provider managed to deal with this task very well."

Need to translate website from English to Spanish.
Ideally, this needs to be fully complete by Oct 10th (this Friday)

Instructions:
1. "app.po" (953 strings) is the translation file for the website. It can be modified with any popular PO editor. Source texts that contain "%s", "%{download_files}", etc are substitution variables and should remain intact.
2. "de.yml" (538 lines) are database fields that will be displayed to the end user. This can be edited in any text editor.

📄 app.po

Copy has been created for 61 pages of a language school website which need to be translated into Spanish. We require the following content translated:

- Body content - this is a mixture of information about the courses, language learning tips, news, short forms (14), links & short descriptions to other pages (often repeated throughout website). A couple of pages just require the intro paragraph translated.
- URL suffixes -
- Meta descriptions -
- Meta titles -
- Alt & title tags -
- Text on buttons, banners - eg. Find out more etc
